

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

ANNUAL INVESTMENT
PERFORMANCE REPORT

FISCAL YEAR 2009

August 26, 2009

To the People of Oklahoma:

I am pleased to issue the fiscal year 2009 annual investment performance report for the Office of the State Treasurer. The report provides details on investment activities from July 2008 through June 2009. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Saving money and generating more income for the state are core functions of the State Treasurer's Office. Due to these ongoing efforts, our office benefited taxpayers by more than \$107 million during FY 2009. Investment earnings for the General Revenue Fund were tripled during the first two years of our administration – generating almost \$100 million during FY 2006 and almost \$150 million during FY 2007. For FY 2008, earnings were \$171 million. In FY 2009, in spite of the worst financial crisis since the Great Depression, earnings were \$157.2 million.

Numerous efficiency projects, including securities lending, direct deposit, records storage and others, are netting substantial savings for the treasurer's office and all of state government. Meanwhile, the annual number of claims paid in our Unclaimed Property Program has jumped more than 72% and the annual amount of money returned has increased by more than 45% in the past four years.

Market Conditions and Economic Developments

When the Federal Open Market Committee (FOMC) met on June 24, 2009, they left the target federal funds rate unchanged at a range of 0% to 0.25%. The FOMC statement released at the conclusion of the two-day meeting stated that the committee expects “that inflation will remain subdued for some time.” The yield curve fell an average of 119 basis points from July 1, 2008 through June 30, 2009. The greatest change was at the short-end of the yield curve with the one year Treasury Note falling 185 basis points ending the fiscal year with a yield of 0.48%. From the beginning of the fiscal year to the end, the Dow Jones Industrial Average fell 2,935 finishing at 8,447; the S&P 500 lost 336 points closing at 919 points; and the Nasdaq fell 470 points finishing at 1,835.

Portfolio Performance

Yield on the Treasurer's portfolio was 3.59% at the end of fiscal year 2009, compared to 4.36% in the previous fiscal year. Securities lending earnings deposited to general revenue were \$7,332,838, representing an increase of \$933,494. The market value of the portfolio at fiscal year-end is \$3,562,574,469. I do not anticipate that any losses will be realized due to excellent liquidity and the fact that investments are typically held to maturity.

In terms of segment weightings, decreases in money market mutual funds, overnight repurchase agreements, U.S. Treasuries, Certificates of Deposit, and State Bonds funded an increase in Mortgaged-backed securities and U.S. government sponsored enterprises. The current interest rate environment resulted in minimal activity in the Link Deposit program. A quantitative analysis of the performance of depository banks revealed specific balances and rates for the year: the Link Deposit program averaged \$31.7 million in collateralized time deposits with a weighted average yield of 2%. By statute, Link Deposit collateralized time deposits have a minimum interest rate of 2%. General revenue collateralized time deposits averaged \$380.1 million at a rate of 1.43%.

General revenue fund collections showed a decrease of approximately \$437.7 million in fiscal year 2009 below the prior year. The year-to-date monthly average investable base finished the year at \$3.853 billion. Year-end earnings on a cash basis decreased \$14.1 million to \$157.2 million over the previous year.

Portfolio Diversification

Portfolio diversification during the year was sound. At year-end, U.S. Treasuries represented 8% of holdings, and U.S. government sponsored enterprises accounted for approximately 42%. Mortgage-backed securities were 21%. Certificates of Deposit represented 6% of assets, money market mutual funds 8% and 10% was maintained in overnight repurchase agreements. A new asset, municipal bonds equal almost 2%. Link deposits and foreign bonds (at less than 1% each), and State bond issues (at 3%) made up the balance of funds invested. These changes are consistent with my policy of insuring adequate safety and liquidity of the investment portfolio.

Collateralization

All funds under control of this office requiring collateralization were so secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Sincerely,

SCOTT MEACHAM, STATE TREASURER
SECRETARY OF FINANCE AND REVENUE

Explanation of Performance Comparison June 30, 2009

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
