OKLAHOMA STATE TREASURER

MONTHLY INVESTMENT
PERFORMANCE REPORT

NOVEMBER 2010

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

December 21, 2010

To the People of Oklahoma:

I am pleased to issue the November monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

U.S. Treasuries experienced rising yields across the curve. The “flight to quality” was driven by speculation that Ireland’s funding crisis might spread to Portugal and Spain. The Federal Open Market Committee (FOMC) concluded their two-day November meeting by announcing a second round of quantitative easing (QE2). The FOMC committed to “a further \$600 billion of longer-term Treasury securities by the end of the second quarter of 2011.” The up-front commitment would be “a pace of about \$75 billion per month.” The New York Federal Reserve Bank released a statement suggesting “an average duration of between 5 and 6 years.” Stocks fell in November. The Dow Jones Industrial Average (DJIA) was down 1.01%, its first down month since August. The Standard & Poor’s 500 and the Nasdaq Composite also fell in November, snapping two-month winning streaks for both indicators.

Economic Developments

The Institute for Supply Management reported that its index of manufacturing activity unexpectedly improved to 56.9 in October from 54.4 in September. The October reading was the highest of the last five months. The October unemployment rate was unchanged at 9.6%. U.S. average hourly earnings rose 0.2%. Total average weekly hours of all employees increased to 34.3 from 34.2. Each 1/10th of an hour equates to 400,000 jobs. The producer price index (PPI) for finished goods rose by 0.4% for the third consecutive month. Retail sales advanced 1.2% in October after a 0.7% increase in September. Headline consumer price index (CPI) rose 0.2%. Energy prices rose for the fourth consecutive month, up 2.6% with gasoline prices increasing 4.6% in October. The U.S. trade deficit shrank in September to \$44 billion. Year-to-date, the trade deficit stands at \$379.1 billion, up 40% from the same period in 2009. The Conference Board’s consumer confidence index rose to 54.1 in November from 49.9 in October. The second estimate of the gross domestic product (GDP) growth in the third quarter showed economic activity expanded at an annual rate of 2.5% for the July-September period. The Commerce Department reported housing starts fell 11.7% in October, the lowest level in 18 months and the third lowest since records began in 1959. Sales of existing homes fell 2.2% in October. Median home prices fell for the fourth consecutive month, to \$170,500. New home sales fell 8.1% in October.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 2.59% in November and the weighted average maturity was 624 days. No significant changes were made in the portfolio's composition. The year-to-date monthly average investable base was unchanged at \$3.172 billion. Portfolio diversification continues to be sound. U.S. Treasuries represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 30%. Mortgage-backed securities were 33%, Municipal Bonds were 2% and Certificates of Deposit represented 5% of assets. Money market mutual funds were 10%, Commercial Paper was 5% and 11% was maintained in overnight repurchase agreements. At this time there are no Link deposit loans. State Bond Issues (at 2%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on market conditions, portfolio strategy will consist of a combination of laddered maturities and market observation for investment opportunities.

Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,131,604,385 and State Agency balances in OK Invest at \$2,166,860,049 for a total of \$5,298,464,434.

Sincerely,

SCOTT MEACHAM, STATE TREASURER
SECRETARY OF FINANCE AND REVENUE

Explanation of Performance Comparison November 30, 2010

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
